

INSPECTION & MAINTENANCE

For safety use, make sure every three-months you clean the machine. Before working, make sure inspect the filter and the nozzle, make sure there is no impurity. After working, make sure there is no water in the pump and the hose.

If the machine need to be repaired in the guarantee period, please return the machine to the shop. You need to provide the certificate of purchase in order to repair or get the substitute. Before Packaging, The machine should be cleaned, then use closed packaging, packaging should be firm. Store the machine in dry conditions.

For transportation safety. The machine should comply with ISTA.

Meaning of crossed –out wheeled dustbin:

Do not dispose of electrical machines as unsorted municipal waste, use separate collection facilities.

Contact you local government for information regarding the collection systems available.

If electrical machines are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being.

When replacing old machines with new ones, the retailer will be happy to take back your old machine for disposal.
